

CRAFT & COMMERCE

Our shameless tribute to fast food features a curated selection of items representing the golden age of guilty pleasure. Before mass production got evil, fast food envisioned a world of quick, cheap, accessible meals. It may now embody some of the worst aspects of our industry, and sure, it's embarrassing to tout the virtues of K&C, but fast food still helped raise us. The flavor profiles take us back to a very specific place and in these crazy times, we've been intoxicated by the familiarity. We spent months exhaustively researching our favorite industrialized items with the goal of recreating those fondly remembered flavors—but with better-sourced ingredients. We hope you enjoy savoring this menu as much as we enjoyed creating it.
